

COURSE/REQUIREMENT WAIVER FORM - STUDY ABROAD

To create an action plan for students studying abroad

Students that study abroad miss required and sequential CEP core courses, seasonal retreats, and Governance sessions during their time abroad. While missed requirements do not directly need to be met, agreed upon expectations during the students absence from the major do need to be mapped out between the student and CEP staff. The following needs to happen:

1. Discuss the study abroad program with CEP's Director or Program Manager and how it fits into your Individualized Study Plan
 2. Fill out this form, indicating how you intend to 'bring back' your experience to the major
 3. Return this form to the Program Manager's office and have it added to your academic file.
